Certificate of Necessity for Road Closure

Let it be known; that on this day, Tuesday March 31, Jersey Hill Road between County Road 37 and County Road 36 will be closed to thru traffic for the foreseeable future. This emergency closure is the result of an embankment failure between the road and the gully at address 8925 Jersey Hill Road in the Town of Canadice that poses a significant safety issue. The location of this site is at a blind curve with an elevation change making site visibility for a one lane road limited. This is the reason for the complete road closure. At this current time the Town's Highway Department is unable to do anything to remedy this situation as it is beyond our man power and equipment capabilities. Alternative measures are being made with the school district and emergency services for continued service to this area.

Any questions and or concerns regarding this matter are to be directed to the Highway Superintendent.

Jeremy Fraim
Highway Superintendent
